333.7306 License to be granted unless inconsistent with public interest; factors in

determining public interest; scope of licensure; license to dispense, prescribe, or conduct research with controlled substances in schedules 2 to 5; registration under federal law to conduct research with schedule 1 substances; effect of compliance with federal law as to registration; limitation on licensure.

Sec. 7306. (1) The administrator shall grant a license to an applicant to manufacture or distribute controlled substances included in sections 7212 to 7220, unless the administrator determines that the issuance of that license would be inconsistent with the public interest. In determining the public interest, the administrator shall consider all of the following factors:

- (a) Maintenance of effective controls against diversion of controlled substances to other than legitimate and professionally recognized therapeutic, scientific, or industrial channels.
- (b) Compliance with applicable state and local law.
- (c) A conviction of the applicant under a federal or state law relating to a controlled substance.
- (d) Past experience in the manufacture or distribution of controlled substances, and the existence in the applicant's establishment of effective controls against diversion.

- (f) Suspension or revocation of the applicant's federal registration to manufacture or distribute controlled substances as authorized by federal law.

(g) Any other factor relevant to and consistent with the public health and safety.

(2) Licensure under subsection (1) does not entitle a licensee to manufacture and distribute controlled substances in schedules 1 or 2 other than those specified in the license.

(3) A practitioner shall be licensed to dispense or prescribe any controlled substances or to conduct research with controlled substances in schedules 2 to 5 if the practitioner is authorized to dispense, prescribe, or conduct research under the laws of this state. The administrator need not require separate licensure under this article for a practitioner engaging in research with nonnarcotic controlled substances in schedules 2 to 5 if the licensee is licensed under this article in another capacity. A practitioner registered under federal law to conduct research with schedule 1 substances may conduct research with schedule 1 substances in this state upon furnishing the administrator evidence of that federal registration.

(4) Compliance by a manufacturer or distributor with the provisions of the federal law as to registration, excluding fees, entitles the manufacturer or distributor to be licensed under this article.

(5) Licensure under subsection (1) does not authorize a licensee to dispense, manufacture, distribute, or prescribe a controlled substance if the dispensing, manufacture, distribution, or prescribing is not for legitimate and professionally recognized therapeutic, scientific, or industrial purposes or is not in the scope of practice of a practitioner-licensee.

Sec. 7311. (1) A license under section 7306 to manufacture, distribute, prescribe, or dispense a controlled substance may be denied, suspended, or revoked or a licensee may be fined, reprimanded, ordered to perform community service or make restitution, or placed on probation by the disciplinary subcommittee upon a finding that an applicant for licensure or a licensee is subject to any of the following:

(a) The applicant or licensee has furnished false or fraudulent material information in an application filed under this article.

(b) The applicant's or licensee's federal registration to manufacture, distribute, or dispense controlled substances has been surrendered, suspended, or revoked.

(c) The applicant or licensee has promoted a controlled substance to the general public.

(d) The applicant or licensee is not a practitioner, manufacturer, or distributor.

(e) The applicant or licensee has not maintained effective controls against diversion of controlled substances to other than legitimate and professionally recognized therapeutic, scientific, or industrial uses.

(f) The applicant or licensee is not in compliance with applicable federal, state, and local laws.

(g) The applicant or licensee has manufactured, distributed, or dispensed a controlled substance for other

than legitimate or professionally recognized therapeutic, scientific, or industrial purposes or outside the scope of practice of the practitioner-licensee or applicant.

(h) The applicant or licensee has violated or attempted to violate, directly or indirectly, assisted in or abetted the violation of, or conspired to violate this article or rules of the administrator promulgated under this article.

(2) The disciplinary subcommittee may limit a license under subsection (1) to a particular controlled substance.

(3) A license under section 7306 to manufacture, distribute, prescribe, or dispense a controlled substance shall be denied or revoked by the disciplinary subcommittee if the applicant or licensee has been convicted of a felony under a state or federal law relating to a controlled substance.

(4) If the disciplinary subcommittee suspends or revokes a license or if a license is void under subsection (6), all controlled substances owned or possessed by the licensee at the time of suspension or the effective date of the revocation order may be placed under seal or seized at the discretion of the disciplinary subcommittee. The department shall not dispose of controlled substances under seal or seizure until the time for taking an appeal has elapsed or until all appeals have been concluded, unless a court, upon application therefor, orders the sale of perishable controlled substances and the deposit of the proceeds of the sale with the court. Upon a revocation order becoming final or after a license becomes void under subsection (6) because the licensee's license to practice is revoked under article 15 and that revocation order becomes final, the disciplinary subcommittee may order all controlled substances under seal or seizure to be forfeited to this state.

(5) The disciplinary subcommittee shall promptly notify the bureau of all orders suspending or revoking a license and all forfeitures of controlled substances.

(6) A license under section 7306 to manufacture, distribute, prescribe, or dispense a controlled substance is automatically void if the licensee's license to practice is suspended or revoked under article 15.

(7) Subject to subsection (8), if the administrator or the disciplinary subcommittee finds that an applicant or licensee has been convicted of a misdemeanor or a felony under a state or federal law relating to a controlled substance, the applicant or licensee shall not have a direct financial interest in or be employed by a person who is licensed under this article to manufacture, distribute, prescribe, or dispense a controlled substance in a capacity in which the individual has direct access to controlled substances for a period of not less than 3 years after the date of conviction. An individual who violates this subsection is subject to a civil fine of not more than \$25,000.00 in a proceeding in the circuit court.

(8) Subsection (7) applies only to a conviction for a misdemeanor that is directly related to the manufacture, delivery, possession, possession with intent to manufacture or deliver, use, distribution, prescription, or dispensing of a controlled substance. Subsection (7) does not apply to a conviction for a misdemeanor based upon an unintentional error or omission involving a clerical or record-keeping function.

333.7314 Denial, suspension, revocation, or limitation of license; order to show cause; service of order; conduct of proceedings; effect of proceeding on existing license; suspension of license on finding of imminent danger; duration of suspension; applicability of subsection (1).

Sec. 7314. (1) Before the disciplinary subcommittee suspends or revokes or limits a license or denies an application or a renewal of a license, the disciplinary subcommittee shall serve on the applicant or licensee an order to show cause why the application or license should not be denied, limited, revoked, or suspended, or why the renewal should not be denied. The order to show cause shall contain a statement of the basis for the order and shall call upon the applicant or licensee to appear before the disciplinary subcommittee or a hearings examiner at a time and place not less than 30 days after the date of service of the order. A show cause order for a denial of renewal of a license shall be served not later than 30 days before expiration of the license. The proceedings described in this subsection shall be conducted without regard to any criminal prosecution or other proceeding. A proceeding to deny renewal of a license does not abate the existing license, which remains in effect pending the outcome of the administrative hearing.

(2) Pursuant to procedural guidelines adopted by the department, the department may suspend a license,

without an order to show cause, simultaneously with the institution of proceedings under section 7311 or if renewal of licensure is refused, if the department finds that there is an imminent danger to the public health or safety that warrants this action. The suspension shall continue in effect until conclusion of the proceedings, including judicial review, unless sooner withdrawn by a hearings examiner or dissolved by a court of competent jurisdiction.

(3) Subsection (1) does not apply to the suspension or revocation of a license by the administrator pursuant to section 7311(6).

(3) The department shall provide an opportunity for a hearing before final rejection of an application for reinstatement.

As a condition of reinstatement, the disciplinary subcommittee, upon the recommendation of the administrator, may impose a disciplinary or corrective measure authorized under this article. (2) Beginning May 1, 1989, and annually thereafter, each person licensed under this article to manufacture, distribute, prescribe, or dispense controlled substances shall inventory and report to the administrator all schedule 2 to 5 controlled substances possessed by the person at the time of the inventory. The annual report required under this subsection may be conducted and submitted to the administrator not more than 30 days before May 1, but shall be conducted and submitted to the administrator not later than 60 days after May 1. Application of good faith to a pharmacist means the dispensing of a controlled substance pursuant to a prescriber's order which, in the professional judgment of the pharmacist, is lawful. The pharmacist shall be guided by nationally accepted professional standards including, but not limited to, all of the following, in making the judgment:

- (a) Lack of consistency in the doctor-patient relationship.

(3) In an emergency situation, as described in R 338.3165 of the Michigan administrative code, a controlled substance included in schedule 2 may be dispensed upon the oral prescription of a practitioner if, the prescribing practitioner promptly fills out a prescription form and forwards the prescription form to the dispensing pharmacy within 7 days after the oral prescription is issued. Except for a terminally ill patient whose terminal illness the pharmacist documents pursuant to rules promulgated by the administrator, a prescription for a controlled substance included in schedule 2 shall not be filled more than 60 days after the date on which the prescription was issued. A prescription for a controlled substance included in schedule 2 for a terminally ill patient whose terminal illness the pharmacist documents pursuant to rules promulgated by the administrator may be partially filled in increments for not more than 60 days after the date on which the prescription was issued.

(4) A practitioner, in good faith, may dispense a controlled substance included in schedule 3, 4, or 5 that is a prescription drug as determined under section 503(b) of the federal food, drug, and cosmetic act, 21 USC 353, or section 17708, upon receipt of a prescription on a prescription form or an oral prescription of a practitioner. A prescription for a controlled substance included in schedule 3 or 4 shall not be filled or refilled without specific refill instructions noted by the prescriber. A prescription for a controlled substance included in schedule 3 or 4 shall not be filled or refilled later than 6 months after the date of the prescription or be refilled more than 5 times, unless renewed by the prescriber in accordance with rules promulgated by the administrator.

(5) A controlled substance included in schedule 5 shall not be distributed or dispensed other than for a medical purpose, or in any manner except in accordance with rules promulgated by the administrator.

(6) If a prescription is required under this section, the prescription shall contain the quantity of the controlled substance prescribed in both written and numerical terms. A prescription is in compliance with this subsection if, in addition to containing the quantity of the controlled substance prescribed in written terms, it contains preprinted numbers representative of the quantity of the controlled substance prescribed next to which is a box or line the prescriber may check.

(7) A prescribing practitioner shall not use a prescription form for a purpose other than prescribing. A prescribing practitioner shall not postdate a prescription form that contains a prescription for a controlled substance. A prescriber may transmit a prescription by facsimile of a printed prescription form and by electronic transmission of a printed prescription form, if not prohibited by federal law. If, with the patient's consent, a prescription is electronically transmitted, it shall be transmitted directly to a pharmacy of the

patient's choice by the prescriber or the prescriber's authorized agent, and the data shall not be altered, modified, or extracted in the transmission process.

(8) Notwithstanding subsections (1) to (5), an animal control shelter or animal protection shelter registered with the department of agriculture pursuant to 1969 PA 287, MCL 287.331 to 287.340, or a class B dealer may acquire a limited permit only for the purpose of buying, possessing, and administering a commercially prepared, premixed solution of sodium pentobarbital to practice euthanasia on injured, sick, homeless, or unwanted domestic pets and other animals, if the animal control shelter or animal protection shelter or class B dealer does all of the following:

333.7333a Electronic monitoring system.

Sec. 7333a. (1) The department shall establish, by rule, an electronic system for monitoring schedule 2, 3, 4, and 5 controlled substances dispensed in this state by veterinarians, and by pharmacists and dispensing prescribers licensed under part 177 or dispensed to an address in this state by a pharmacy licensed in this state. The rules shall provide an appropriate electronic format for the reporting of data including, but not limited to, patient identifiers, the name of the controlled substance dispensed, date of dispensing, quantity dispensed, prescriber, and dispenser. The department shall require a veterinarian, pharmacist, or dispensing prescriber to utilize the electronic data transmittal process developed by the department or the department's contractor. A veterinarian, pharmacist, or dispensing prescriber shall not be required to pay a new fee dedicated to the operation of the electronic monitoring system and shall not incur any additional costs solely related to the transmission of data to the department. The rules promulgated under this subsection shall exempt both of the following circumstances from the reporting requirements:

(a) The administration of a controlled substance directly to a patient.

(b) The dispensing from a health facility or agency licensed under article 17 of a controlled substance by a dispensing prescriber in a quantity adequate to treat a patient for not more than 48 hours.

(2) Notwithstanding any practitioner-patient privilege, the director of the department may provide data obtained under this section to all of the following:

(a) A designated representative of a board responsible for the licensure, regulation, or discipline of a practitioner, pharmacist, or other person who is authorized to prescribe, administer, or dispense controlled substances.

(b) An employee or agent of the department.

(c) A state, federal, or municipal employee or agent whose duty is to enforce the laws of this state or the United States relating to drugs.

(d) A state-operated medicaid program.

(e) A state, federal, or municipal employee who is the holder of a search warrant or subpoena properly issued for the records.

(f) A practitioner or pharmacist who requests information and certifies that the requested information is for the purpose of providing medical or pharmaceutical treatment to a bona fide current patient.

(g) An individual with whom the department has contracted under subsection (9).

(3) Except as otherwise provided in this part, information submitted under this section shall be used only for bona fide drug-related criminal investigatory or evidentiary purposes or for the investigatory or evidentiary purposes in connection with the functions of a disciplinary subcommittee or 1 or more of the licensing or registration boards created in article 15.

(4) A person who receives data or any report under subsection (2) containing any patient identifiers of the system from the department shall not provide it to any other person or entity except by order of a court of competent jurisdiction.

(5) Except as otherwise provided in this subsection, reporting under subsection (1) is mandatory for a veterinarian, pharmacist, and dispensing prescriber. However, the department may issue a written waiver of

the electronic reporting requirement to a veterinarian, pharmacist, or dispensing prescriber who establishes grounds that he or she is unable to use the electronic monitoring system. The department shall require the applicant for the waiver to report the required information in a manner approved by the department.

(6) In addition to the information required to be reported annually under section 7112(3), the controlled substances advisory commission shall include in the report information on the implementation and effectiveness of the electronic monitoring system.

(7) The department, in consultation with the controlled substances advisory commission, the Michigan board of pharmacy, the Michigan board of medicine, the Michigan board of osteopathic medicine and surgery, the Michigan state police, and appropriate medical professional associations, shall examine the need for and may promulgate rules for the production of a prescription form on paper that minimizes the potential for forgery. The rules shall not include any requirement that sequential numbers, bar codes, or symbols be affixed, printed, or written on a prescription form or that the prescription form be a state produced prescription form. In examining the need for rules for the production of a prescription form on paper that minimizes the potential for forgery, the department shall consider and identify the following:

- (a) Cost, benefits, and barriers.
- (b) Overall cost-benefit analysis.
- (c) Compatibility with the electronic monitoring system required under this section.

(8) The department shall report its findings under subsection (7) to the members of the house and senate standing committees having jurisdiction over health policy issues not later than October 1, 2002, and before the electronic monitoring system required under this section becomes operational.

(9) The department may enter into 1 or more contractual agreements for the administration of this section.

(10) The department, all law enforcement officers, all officers of the court, and all regulatory agencies and officers, in using the data for investigative or prosecution purposes, shall consider the nature of the prescriber's and dispenser's practice and the condition for which the patient is being treated.

(11) The data and any report containing any patient identifiers obtained therefrom is not a public record, and is not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(12) As used in this section, "department" means the department of consumer and industry services.
